

Pole Banner Kit

Product Parts

- 1 - 2 Pole Brackets
- 2 - 4 Metal Bands

Display Set-Up (requires 2 or more people)

Step 1

Place the top pole bracket against the pole with the wings facing down. Wrap the first metal band around the pole and over the top of the bracket, aligning it with the bracket's grooves.

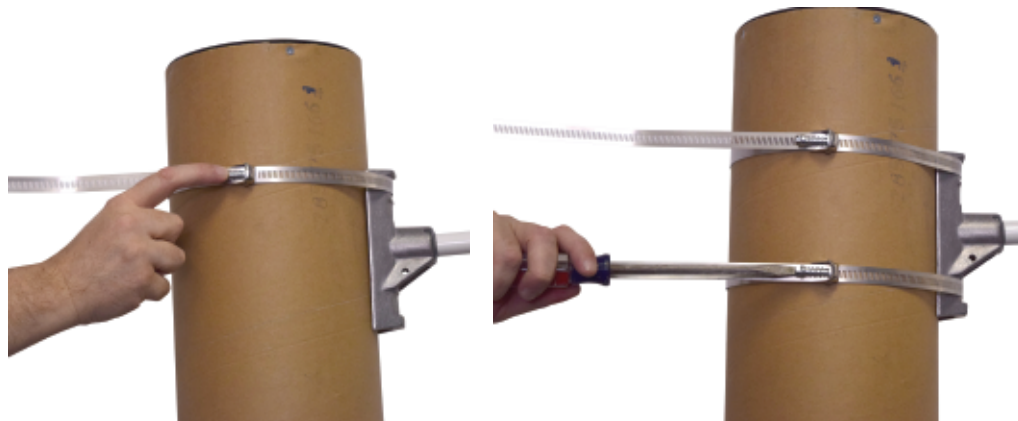

Step 2

Insert the end of the metal band without the screw housing into the end with the screw and pull through until the bracket is tight against the pole.

Step 3

Flatten the screw against the metal band to lock in place. Use a flathead screwdriver to tighten further. Repeat this process to tighten the second metal band against the bottom of the bracket.

Pole Banner Kit (Cont.)

Step 4

Once secure, slide the top pole pocket of your banner over the top pole.

Step 5

Slide bottom pole into bottom pocket, making sure wings are facing up toward top pole. Repeat steps 1 through 4 to secure the second pole bracket against the pole. Loosen and tighten the brackets as needed until the banner is pulled taut.

Step 6

You can further secure your banner to the base of the stand by using a zip tie (sold separately) to connect the banner's corner grommets to the hole in the pole base.
