Why we can say we have the #1 FEATHER FLAGS in the U.S

We have tested, adjusted, and perfected our FEATHER FLAGS (Wind Sail Banners) to the point that we honestly believe we have the **FINEST QUALITY** Feather Flags in the United States! Our high-quality printing process is second-to-none, image extends from edge-to-edge; YES, that includes the flag sleeve! Our 3-piece pole sets are so sturdy and well-designed we provide a 2-year conditional warranty.

Our unique dye-sublimation printing process provides +95% ink saturation through the flag's fabric (mirrored image on back). In addition, the artwork is extended onto the sleeve, so both the front image and the back mirrored image extend from edge-to-edge. The dye-sublimation process also helps prevent color fading.

Our feather-shaped flags are available in 3 standard sizes: 9 ft, 12 ft, & 15 ft. These flags are made of a 100% polyester material and are specially designed to remain open even in zero wind conditions.

These flags were designed to stay open, remain taught, and last. The highly flexible but sturdy 'whip' is attached to the top of the pole and fed through the flag pocket into the top reinforced pocket. The flag also has an easy to use reinforced clip that attaches to the bottom of the flag, keeping the banner secure and taught.

Each of our Feather Flags come with a 3-piece heavy-duty aluminum pole, interconnected with an extra-strength bungee cord to make the assembly easy. Our specially designed all-aluminum pole comes with a 2-year conditional warranty.

Each Feather Flag comes standard with a ground stake attachment to be used in soft ground such as grass or dirt. Or you can order our cross base and/or weight donut, which can be used on solid ground such as a sidewalk.

The base of the Feather Flag pole has a specially designed steel ball bearing that will attach to the pole receiver of the ground stake (or cross base) providing a 360 degree turning radius. This unique component is key to our product's functionality and longevity, which is why we have spared no expense!

The custom easy-to-use cotter pin keeps Feather Flag poles attached to the stake base or cross base. This feature makes it easy to take your flag down during inclement weather.

Our FEATHER FLAGS (Wind Sail Banners)

- Fast Turnaround — Most orders will print and ship within FOUR business days.
- Attracts Attention — Steel ball attaches pole to stand, allowing the flag to TURN 360° in the wind.
- Easy Setup — 3 main pole sections come attached with a HEAVY-DUTY bungee cord.
- Edge-to-Edge Printing — Flag image extends to ALL edges of the flag, including sleeves.
- 95% Ink Saturation — Color dyes through material ensuring VIBRANT colors on both sides.
- Digital Printing — Print FULL COLOR vector or rasterized images for no extra charge.

We feel nothing does a better job of drawing customers' attention to your place of business or unique product than our Feather Flags!

The only thing better would be to have multiple Feather Flags!

Medium - 9 ft

Large - 12 ft
