

Area covered by hardware

The diagram shows a page layout with several key lines and a hatched area. At the top, there is a hatched area representing hardware. Below it is a solid blue line. Further down is a solid black line. At the bottom is a dashed red line. The area between the blue and red lines is the main content area. The area between the black and red lines is the bleed area. The area between the blue and black lines is the cut line area. The area between the red and hatched area is the bottom hardware area.

Keep all important information inside blue line.
